ROOFGARD - COOL GREY

SYNTHETIC UNDERLAYMENT

Iko's Roofgard-Cool Grey surface provides a superior slip-resistant surface. Roofers can safely walk on it during dry installations.

SIZES: 48" x 250' (1000 sq.ft.) WEIGHT: 25 lbs

Synthetic, non-breathable material is completely water resistant; effectively sheds water that gets behind shingles or alternative roofing materials.

Flexible even in cold weather, won't crack, peel or delaminate. Easy to install around vents, dormers and other roof structures.

Multi-layered construction with a high-strength polypropylene core, offers outstanding tensile strength, durability and tear-resistance.

Top and bottom layers are coated with polyolefin. This tough coating provides superior weather-resistance.

Contains UV stabilizers that if left exposed, won't break-down or experience performance loss up to 3 months.

Comes printed with installation lines, making application easy.
